Time Series (Stat 454)
Lab (3)

Find out the moving average values of the following time-series data if we assumed that the length of the period is equal to (k=5, k=4), support your answer by plot

Year	Yt
1948	50
1949	36.5
1950	43
1951	44.5
1952	38.9
1953	38.1
1954	32.6
1955	38.7
1956	41.7
1957	41.1
1958	33.8
